

Communication from NMEU to EU Observatory for the Supply of Medical Radioisotopes BR2 December Restart

Brussels, 12 December 2022

The NMEU Emergency Response Team (ERT) has been informed that the BR2 reactor continues to work toward resuming operations as scheduled on December 20 subject to receiving required Belgian nuclear regulatory authority approval.

Nuclear Medicine Europe notes the current Mo-99 and I-131 global supply situation has returned to normal following disruptions experienced in November.

NMEU will provide further communication to the nuclear medicine community as developments warrant.

SIGNED

Ira Goldman
Chairman NMEU SoS WG

Bernard Ponsard
Chairman ERT
